

## **Regional Board Member (Region: Western Pacific)**

<b>Name</b>	Mr. Anthon Tze Ching Wong
<b>Contact details of nominee</b>	<u><a href="mailto:pepsiblue@gmail.com">pepsiblue@gmail.com</a></u> Phone:00852-9607-7931
<b>Country</b>	China (Hong Kong, SAR)

### **Experience and suitability for the role, including viral hepatitis status**

**(By board member):**

I have been diagnosed with chronic hepatitis B infection since my college days. I know that my disease is active and has participated in clinical treatment trial with some success. I am married and expecting my first child early next year. I understand that there have been many advances in the treatment of chronic hepatitis B that will benefit me and the many infected people in Hong Kong who may not even be aware of his/her condition. In my experience, many people in Asia are completely ignorant of the health risk and potential fatality when infected by hepatitis viruses, especially chronic infection with viral hepatitis B and C. Having interviewed many patients, some with very late stage of hepatitis B cirrhosis,

I realized that I can apply my skill and knowledge to help so many other individuals. I have produced video clips and DVDs on the subject for Asiahep Hong Kong Ltd. to be distributed to the public.

I hope that if I am nominated as Regional Board Member, I can further engage other patient members in Asiahep Hong Kong to promulgate update information and advocate for comprehensive management for patients with hepatitis.
